**Conventional
fiber cross section**

Flat fiber cross section

Flat fiber has excellent flashing, bulkiness, silk hand feel, stain resistance and anti-pilling properties. The fabric woven by overcoming the circular cross-section fiber has a waxy and soft feel, which is easier to dye, and the fiber hair has good uprightness. The fabric feels soft and delicate, rich in three-dimensionality, strong warmth, comfortable and pleasant, and can give the fabric a unique style and excellent performance.
